Czytając "Kod Leonarda da Vinci" nie powinniśmy zapominać o fikcyjnym charakterze powieści.

"The Da Vinci Code is an unusually creative and thrilling novel. But it is nothing more than that. The theories and speculations in the book don't turn into truths because the story takes place in historical buildings. Those who interpret the speculations in the book as historical realities will be building their understanding of Western civilization and Christian history on legends, falsifications and non-existing sources."
